

OFF ROAD  
ACCESSORIES FOR  
**VOLKSWAGEN  
AMAROK**

## ALUMINUM FRONT BUMPER

Expanded angle of approach

Easy installation onto OE fitting points

Corrosion resistant powder coating with preliminary treatment

6 mm aluminum alloy body, 5 mm steel mounting brackets

Hi-lift Jacking slots

ADR and Airbag compliant

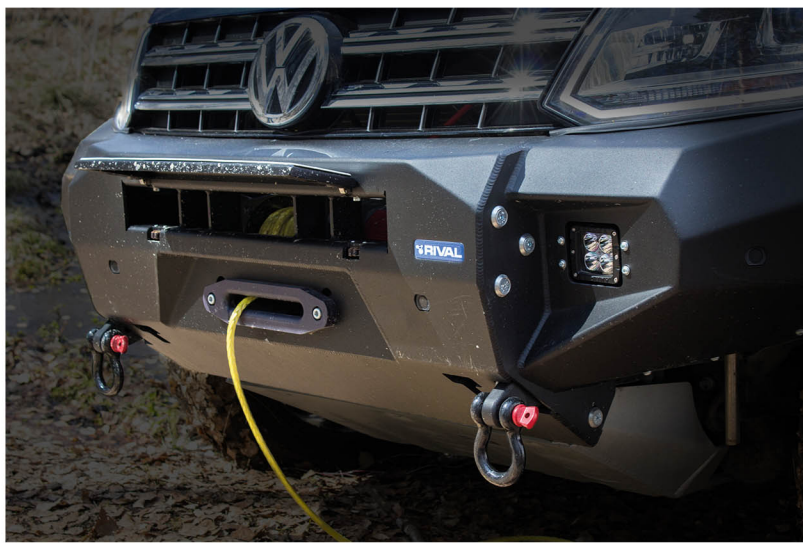

Reinforced 3.5-ton capacity towing points

Underbody armor compatible

Total weight 38 kg

Equipped with convertible license plate frame that provides easy access to the winch Installation of winch up to 12 000 lb

## CONCEALED STEEL WINCH MOUNTING BRACKET

Designed for concealed installation of the winch behind the original bumper

Corrosion resistant powder coating with preliminary treatment

Easy and quick installation

5 mm steel frame

Weight without winch – 13 kg

## ALUMINUM REAR BUMPER

Easy installation onto OE fitting points

Parking (PDC) sensors compatible

2" (5 cm) tow bar compatible

Hi-lift Jacking slots

Reinforced 3.5-ton capacity towing points

Anti-slip pads

Corrosion resistant powder coating with preliminary treatment

6 mm aluminum alloy body, 5 mm steel mounting brackets

Total weight 34 kg

## SIDE STEP BARS

Anti-slip pads

Installation onto OE fitting points, 3 mountings

Corrosion resistant powder coating with preliminary treatment

Durable protection of vehicle under-body and sills during off-road driving

Hi-lift Jacking slots

Made of 63 mm steel pipe

Total weight 58 kg per set

## ALUMINUM ROOF RACK

Made of light-weight aluminum alloy

Corrosion resistant powder coating with preliminary treatment

Easy installation onto OE fitting points

No drilling required

Removable upper deck for carrying baggage/tent

Additional lighting installation compatible

Max load up to 120 kg

Total weight 15.5 kg

## ALUMINUM UNDERBODY ARMOR

6 mm Aluminum alloy

Skid plates - Full kit under body protection which includes engine, gearbox, transfer case, fuel tank

Stiffening and reinforcing ribs provide maximum strength

Polymer powder coating which is corrosion resistant

Installed onto OE mounting points. No drilling or modification required

Concealed fitting for minimum damage during off-road driving

Does not decrease ground clearance

Apertures for water and dirt drainage

Vent and airflow apertures

Total weight 48 kg

## HEAVY DUTY TRUCK BED COVER

Made of lightweight strong aluminum alloy with polymer coating resistant to corrosion

Rubber sealers prevent water and dust from getting into the vehicle load-bay

Equipped with lock

Equipped with gas struts for easy opening and fixation

No tools required to remove the cover

Mounting system for additional baggage

Total weight 35 kg

## BONNET STRUT KIT

- Easy opening
- Hands free operation
- Clean clothes
- Reliable support to the bonnet
- Installation onto OE fitting points
- 2 dynamic gas struts STABILUS and 4 mm steel fittings
- Standard angle of opening
- Zinc-lamellar coating to the fittings
- Individual application of fittings and selection of gas strut for each car specific model

## TAILGATE ASSIST KIT

- Easy opening of the tailgate
- High safety feature for small children
- Hands free operation
- Clean clothes
- Standard tailgate installation system
- Installation onto OE fitting points
- 2 dynamic gas struts STABILUS and 4 mm steel fittings
- Zinc-lamellar coating to the fittings
- Individual application of fittings and selection of gasstrut for each specific car model

Where others cannot overcome the limits of their own capabilities, the vehicles equipped with RIVAL expeditionary and off-road equipment continue to move without compromise. Our products increase not only the ability to pass, but also add to the comfort in driving. You can fasten everything you need for a long journey in RIVAL aluminum transformer roof rack. The RIVAL aluminum bumpers will protect you when traveling outside regular roads. If it happens that you or your friend get stuck, the built-in winch will allow you to continue your way.

We create equipment for comfortable and safe travels in your stylish vehicle.
